**Superior Quality and
Consistency**, another
approach to **Profitable**
broiler farming.

DE HEUS BROILER **COMPLETE FEED**

THE ULTIMATE SOLUTION FOR THE MODERN BROILER FARMER

READY-TO-USE, PERFECTLY BALANCED, AND FAST-ACTING.

The profitability of broiler farming is won or lost on Feed Conversion Ratio (FCR). Inconsistent raw materials and mixing errors lead to slow growth and uneven flocks. De Heus Broiler Complete Feeds eliminate these risks. Our high-performance range provides 100% of the required amino acids and energy in every pellet, ensuring your birds reach market weight faster with superior meat quality.

WHY OUR BROILER COMPLETE FEED IS RIGHT FOR YOU

Optimal Feed Intake

Specifically designed textures (Crumble and Pellet) encourage chicks and growers to eat more, faster.

Consistent nutritional value in every scoop.

Every bag is a complete, perfectly balanced meal. Your birds receive exactly what they need, ensuring reliable and consistent results.

Biosecurity & Quality

Every bag is factory-tested for mycotoxins and contaminants, ensuring a healthy flock and low mortality.

Market-Ready Results

Achieve uniform weights and high carcass yields, ensuring you get the best price at the point of sale.

DISCOVER OUR PHASE FEEDING SOLUTION FOR YOUR BROILER

0 - 7 days
